### EDMUNDO ESCAMILLA AND YURI DE GORTARI

Yuri de Gortari Krauss and Edmundo Escamilla formed a team back in 1990 to create a new concept-restaurant - "La Bombilla", providing delicious traditional Mexican cuisine while simultaneously educating diners on the history and culture related to the dishes they were eating. Since then, they have specialized in promoting Mexican gastronomic culture within the framework of a unique venue which combines the structure of an informal talk on the history and tradition surrounding Mexican cuisine while actually serving samplings of dishes that illustrate the topic being discussed.
